

Guide to Student Registration

2015–2016 School Year

Use this guide to help your students Join the Team!

Need help? Email StudentAmbassador@FuelUpToPlay60.com!

Get Online!

1. Visit FuelUpToPlay60.com and click “Join.”
2. Select “I’m a student” in the dropdown menu.
3. Enter date of birth.
4. Create a username and password.
5. Take the Pledge and agree to the Terms of Use and Privacy Policy.

Students Under 13

Students under 13 will only need to create a unique username and password to access the Dashboard. Remember, we do not recommend using first or last names as part of a student’s username.

Once a student under 13 reaches Level Three (30,000 Points), he/she will receive a message on their Dashboard about getting parent permission.

Parent Permission Form: The Parent Permission Form becomes available on the student Dashboard when the student reaches Level 3 (30,000 Points). Once the form is signed and completed, follow the instructions provided on the form. Once received, it will take at least 48 hours to process permission. Once completed, the student can finish the registration process by completing their profile on the “My Account” page.

Students 13+

Make sure students have all required information ready to create their account on FuelUpToPlay60.com:

- A unique username and password (Remember, we do not recommend using first or last names as part of a student’s username.)
- Email address (*Note: Students under age 13 will need to reach Level Three and have a parent complete and return the parent permission form via fax, email or mail to gain permission.*)
- School zip code
- School name

TIP: Have students write down their username and password and keep it in a safe place once it has been created on FuelUpToPlay60.com. Once a student creates an account, they will use the same information to log in for following school years.

FAQs

Do students need to create a new account every year? Nope! Students are able to access their account with the same username and password as last year, which is why we recommend they write them down and keep them in a safe place.

Do students under 13 need to get parent permission every year? Nope! Once a student under 13 has parent permission for their account, they do not need to repeat the process (unless the student decides to create a brand new account).

What can a student under age 13 do without parent permission? Students who do not have parent permission can still access the student Dashboard and earn Points. However, students without parent permission cannot receive email communications from the Fuel Up to Play 60 team, complete their profiles, link to their schools, enter contests/sweepstakes, or apply for a chance to become State or School Ambassador and attend the Student Ambassador Summit.

As an educator, can I give my students under age 13 permission to use the site? No, permission must come from a parent for students under 13 to use the site.

Why does Fuel Up to Play 60 need all of this information for my students to complete their online profiles?

- Birthdate: The Children's Online Privacy Protection Act (COPPA) regulations require parental consent for the collection or use of any personal information for students under the age of 13, so Fuel Up to Play 60 must verify the age of each student using the site.
- Email Address: Fuel Up to Play 60 uses email to communicate messages to students about activating the program, sweepstakes, leadership opportunities and more. Email addresses are also used to validate active accounts, reduce duplicate accounts and verify online activity. A parent can elect to use his/her own email address in place of a student's direct email address.
- School: Linking to a school provides validation of student accounts and helps students become eligible for more prize opportunities.
