

.....**2016 Coolers for Summer U Programs**
Grant Application

OVERVIEW

The Maine Dairy and Nutrition Council recognizes the importance of a healthy, nutritious summer meals program to the health of Maine children. Summer meals provide the nutritional bridge between the end of one school year and the beginning of a new school year. The Maine Dairy and Nutrition Council is committed to helping schools increase participation in their summer meals programs so students return to school in the fall, healthy and ready to learn.

The Maine Dairy and Nutrition Council also knows kids will drink more milk if it's displayed attractively and served icy cold. To help schools do both during the summer and school year, Maine Dairy and Nutrition Council will award up to three, Fuel Up to Play 60 soft-sided insulated coolers and accompanying ice packs to twenty (20) Maine school districts participating in the USDA Summer Meals Program. Each brightly colored, soft-sided, insulated cooler holds one standard milk crate.

Interested school nutrition directors are asked to complete the application and return it to the address below by April 29, 2016. Preference will be given to schools enrolled in Fuel Up to Play 60 and school nutrition directors who are signed up as Fuel Up to Play 60 Program Advisors. To see whether your school is enrolled and to sign up as a Program Advisor, visit www.FuelUpToPlay60.com
